RG6 Dual & Quad Shield Non-Plenum Coax

RG6 Dual and Quad Shield Non-Plenum cables extend Mohawk's existing product offerings to include Coax capabilities. RG6 Dual Shield has a 60% braid coverage and RG6 Quad Shield consists of a 60%-40% Aluminum Braid Design.

These cables are used for Community Access Television Stations, Security Cameras, Broadband Cable Access Television and Video Cameras. Primary markets include K-12 education, health-care and security sectors.

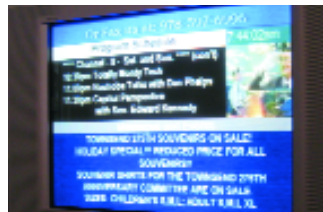

Dual and Quad Shield Non-Plenum cables are swept tested to 3.0 GHz.

The Dual and Quad Shields are ETL listed as CM/CL2 and CATV. Both have a Conductor of 18 AWG Solid Copper Clad Steel with a NOM OD of .40" (1.02 mm). The Dielectric is foam polyethylene. The braid consists of 34 AWG Aluminum with a PVC jacket.
