RG6 Dual and Quad Shield Plenum Coax

RG6 Dual and Quad Shield Plenum cables extend Mohawk's existing product offerings to include Coax capabilities. RG6 Dual Shield has an 80% braid coverage and RG6 Quad Shield has a 40%-60% Aluminum Braid Design. The braid designs ease the process of stripping the cable.

These cables are used for Community Access Television Stations, Security Cameras, Broadband Cable Access Television and Video Cameras. Primary markets include K-12 education, healthcare and security sectors.

The Dual and Quad shield plenum cables are swept tested to 2.2 GHz.

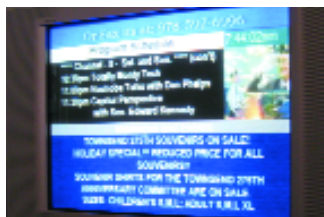

RG6 Dual Shield Plenum Coax is ETL listed as CMP and c(ETL) certified as CL2P FT6. The Conductor is 18 AWG Solid Copper Clad Steel with a NOM OD of .40" (1.02 mm). Dielectric is foam FEP. The braid consists of 34 AWG Aluminum with a low smoke Thermoplastic jacket.

RG6 Quad Shield Plenum Coax is ETL listed as CL2P and C(ETL) Certified as CMP FT6. The Conductor is 18 AWG Solid Copper Clad Steel with a NOM OD of .40" (1.02 mm). Dielectric is foam FEP. The braid consists of 34 AWG Aluminum with a low smoke Thermoplastic jacket.
